open space.

PEOPLE LIGHT OUR WAY

# BEAM

Compact. Flexible. Individual.

The Uplight **BEAM** enables flexible lighting design that adapts seamlessly to individual needs in the office or home office.

The integrated control gear with Casambi guarantees simple control and opens up a wide range of options for creating the perfect lighting ambience.

## Plug & Play

---

**BEAM** is incredibly simple and uncomplicated. It can be installed quickly and easily with plug&play and enables flexible lighting design, whether in the home office or in an open-plan office. With **BEAM**, every work area can be customised to suit individual requirements.

## Casambi

---

Enables convenient and intuitive control of individual luminaires or luminaire groups via smartphone app and creates the perfect light for every situation. Optional sensors can be used to control the lighting via motion detectors and/or adjust the brightness to the ambient light.

## Not losing connection

---

**BEAM** has two 25W built-in USB-C power supply units. This allows you to connect additional devices such as table lamps or charge mobile phones.
