A drop of light

PEOPLE LIGHT OUR WAY

## **TEA GLASS**

Premium glass pendant  
luminaire

The unique pendant luminaire was designed by **Herzog & de Meuron** to inspire and captivate people with its lightweight and almost floating look. Offering both direct and indirect shares of light, **TEA GLASS** lets you elegantly combine accent and ambient lighting, and the illuminated light guide is a striking highlight, especially at night.

### Light guide creates unique effect

---

Its light guide is an aesthetic particularity – the light flows beautifully from the ceiling along the pendant into the drop-shaped luminaire body.

**TEA GLASS** creates a fascinating effect and captivates people.

### Perfect for effective arrangements

---

Adapt **TEA GLASS** to your individual needs or hang several luminaires at different heights for an even more striking effect.

### Flexible mounting option

---

The impressively illuminated light guide can be easily shortened on site to the desired length.

**TEA GLASS** is guaranteed to attract attention wherever and however you place it.

### Established design in a new guise

---

**TEA GLASS** has adorned various buildings for years. Now, the unique design shines even more brilliantly thanks to the new, high-quality glass body. **TEA GLASS** is solid and makes a lasting impression, not least thanks to its efficient LED technology.
